📅 1993/10/11

Profile

Enthusiastic Python developer with a strong foundation in the banking sector, currently undergoing a comprehensive Python developer course with 4 months successfully completed and 3 months remaining. Proficient in MySQL, Django, JavaScript, Bootstrap 5, and software testing, with a solid grasp of full-stack web development including HTML, CSS, and Python programming. Seeking remote positions to leverage Python skills in a dynamic environment, adeptly balancing responsibilities as a single mother.
